

In March

Task of the Month

Reduce the Impact of Local Travel

Drive less

Cutting back about 6 miles per day saves 2000 miles a year!

- ❖ Take a bus.
- ❖ Bike or walk.
- ❖ If you drive, combine trips.
- ❖ Carpool to work and to your house of worship.
- ❖ Work from home when possible.

Did you know?

When it combines with oxygen as you drive, each gallon of gasoline emits 19.6 pounds of CO₂ in addition to the 5 pounds of CO₂ emitted before it reaches the pump!

Don't idle!

Idling while parked pollutes unnecessarily. An engine restart uses approximately the same amount of fuel as idling for ten seconds and causes less wear than idling.
